Hello,

I work in Petaluma and I am a sponsored roller skater who enjoys all forms of skating, especially skateparks. I have attended many meetings already regarding the skatepark project, and I am very grateful for the city's active involvement and interest in this project. I know the entire action sports community is looking forward to seeing the new park finally become a reality!

Unfortunately I am unable to attend tonight's meeting, but I try to tune in to the meeting via Zoom. I am not sure if amenities have been finalized, but I would like to ask if the plans can include a water bottle fill station. Or at least a water fountain nearby. I know there are other fields in the area so I am sure there are hydration stations nearby already, but it would be nice to have one close to the skatepark. Shaded areas would be great too. Possibly even a bbq pit, to help encourage community use even more!

Anyways, I mainly want to show support and gratitude to the city council for listening to the action sports community, being transparent, supportive, and for just being as passionate about this park project as we are! Thank you!

~Tami
