Item #16: Resolution to Approve the Proposed Project List for Fiscal Year 24/25 by SB 1: The Road Repair and Accountability Act of 2017

- Question: The Resolution, Exhibit A lists “various streets in Petaluma.” What streets are proposed?
 - Response: The list of streets that will be included in the preventative maintenance project are still being developed. These streets are being prioritized based on the pavement condition index (PCI) and safety. The target PCI for these streets is a PCI of 70 to 75 to provide the longest life. The Safety category includes proximity to schools and parks, collision history, SCTA’s High Injury Network, and takes into account the Safe Streets nominations list. The list shall be finalized in August/ September and a map/list will be provided on the City’s website and will be distributed to the City Council for awareness.
