Framework Review Form

Date: 4/26/24

Committee: Climate Commission

Committee Member Name: Dan Ellecamp

Framework Title (please complete one form per Framework): Transportation

---

In light of **the Vision, Pillars, and Guiding Principles** prepared by GPA and accepted by City Council (https://www.planpetaluma.org/documents#gpuvision):

What are the <u>most important</u> policies in this framework? We recommend identifying the top 5 (or fewer) policies and ranking them in order of importance.

Policy	Explanation
TP- 2.2 Fulfill Blueprint for Carbon Neutrality	Develop and promote a wholistic approach to low and zero carbon transportation solutions.
TP-6.1 Ensure Mobility Priorities are Implemented	Make sure that the General Plan guides city staff to use data-driven tools to regularly measure progress towards goals.
TP-6.2 Employ Data-Driven Mobility Planning	Capture data to measure the effectiveness of transportation programs and policies. It is not enough just to make the changes and implement programs.
TP-5.1 Integrate Development and Transportation Policies	Transportation policy needs to be integrated with development policies and goals.
TP-3.5 Invest in Public Transit	Expand the city bus network and integrate it with all the other public and private transportation providers that serve Petaluma. Remove obstacles that deter folks from using public transportation.

What <u>concerns</u> do you have about the policies in this framework? For example, are they unclear? Should they be softened or strengthened? Do you disagree with the policy direction?

Policy	Explanation

Please submit this as a word document via email to your staff liaison at the conclusion of your meeting as part of the public record.
