TP-3.5: Invest in Public Transit	An integral partner to all of our transportation goals, needs city's full attention
TP-5.1: Integrate Development and Transportation Policies	As stated, ensure land use and transportation policies work in concert
TP-3.1: Adopt an Inclusive Mobility Framework	Reinforces and promotes equitable access in our active transportation planning
TP-1.2: Develop Green Street Standards	Invites people to get out and enjoy, promotes good climate practices, & prioritizes dedication of road space to active transportation

What concerns do you have about the policies in this framework? For example, are they unclear? Should they be softened or strengthened? Do you disagree with the policy direction?

Policy	Explanation
TP-5.3: Encourage Low Carbon Travel Through Transportation Demand Management	Unclear; who develops this, and monitors? Example of Transportation Demand Management Plan needed, perhaps
TP-5.4: Align Parking policies with Climate Goals	Definitions needed: "Curb Management Plan", "Park-Once-and-walk action", "Park-Once Town Center"
