The City of Petaluma Public Financing Corporation (PPFC) was created in October, 1990 to provide financial assistance to the City by acquiring, constructing, and financing various facilities, and then leasing them back to the City. The PPFC is a nonprofit public benefit corporation, which has been used to issue debt in the form of one Certificate of Participation (COP).

The City Council serves as the board for the Petaluma Public Financing Corporation and the annual meeting is scheduled for June 3, 2024 to accept this report.
