Dear City Clerk,

I would like to provide public comment for Monday's 10/24/22 meeting.

- o I love Live Oak Charter School because it is a free Waldorf Inspired public Charter School in Petaluma. It provides a creative learning community for students TK-8th grade and their parents.
- o I love that Live Oak is at the Sonoma-Marin fairgrounds because it allows students in the neighborhood to walk and bike to school. In addition it attracts families to our school from Santa Rosa to San Rafael because it is right off of the 101 corridor and close to the SMART train. Families spend money at local businesses, generating tax dollars for our town.
- o The changes that I really want to see happen at Live Oak's facilities are:
 - o Buildings and grounds that are well maintained and repaired on a timely basis, buildings are removed or replaced when they no longer serve their purpose.
 - o Communications with the landlord are collaborative and take into account our population who is active on the campus from 8 am - 5:30 pm Monday - Friday.
 - o After weekend rental events the clean-up process is timely and complete so that it doesn't negatively impact our daily operations.
 - o To re imagine our footprint so we don't need to pack up and move out of our Middle School classrooms and Music Annex the first week of June for 5 days and then need to move back in and reset up the classrooms for the next school year.
 - o That the front gate is in working order and provides a secure environment from outside threats.

Thank you!

~ Kim Anderson
