The Fairgrounds are an important part of this community.

What would we have done after the fires.

We needed it not only for displaced animals but for the people. Most of the people that are in favor of doing away with our treasure are new to the Petaluma community or people only seeing a profit. We need it for all not just for a few.

The thought of not having it part of our town, my children and grand- children's lives is unthinkable. Please save it for now and for generations to come. It is not only for the Fair, but as a gathering place for all.

Colleen & Larry Hoburg
