I'm writing to urge the Petaluma City Council to enact the Fairgrounds Advisory Panel's recommendations, including turning the 55 acre fairground parcel into more open, equitable, accessible park land.

The Speedway business should be moved to a location in the region where the noise will not have such a detrimental impact on the community.

The Fairgrounds land should become the Central Park of Petaluma, including more trees and walking paths that allow citizens and families to travel by foot and bike back and forth across our community.

Thank you for implanting such a democratic and open process for evaluating the next steps of what could be the crown jewel of Petaluma's open space.

Please honor the results of the process that was implemented here and listen to the community's wishes by following the recommendations of the Fairgrounds Advisory Panel.

Thanks you very much,  
Matt Fabiano  
Midtown resident
