Dear City Council,

Thank you for your efforts to collect input and be as inclusive as possible to hear the vision of the Fairgrounds property from Petaluma residents.

I have seen all of the charette maps and would really like to see a version of Map 1a used as a guide for the future design of the property.

Map 1a seems to be a carefully thought out plan, providing city services in a centralized location, offering green space and places for people to live and play as well.

Thank you,  
Phyllis Tajii  
Petaluma resident
