Dear City Council members: I'm writing to urge you to vote for the amendments to the various Impact Fees for Housing proposed in Agenda Item 7. As you know, housing is a major issue in Sonoma County and in Petaluma. The only way out of the present crisis with regard to homelessness, and projected homelessness, is to provide housing for those currently unhoused, as well as those in danger of being unhoused that provide the labor for the multitude of service jobs in Petaluma and Sonoma County. Waiving Impact Fees is a step in the right direction. A further step, providing housing options for low and very low income families will get us closer to solving the problems we are facing now. Thank you for your time.

Colleen S. O'Neal
