RE: Amendments relative to on-site parking Zoning Ordinance Section 11/040 and associated references in Section 11.030, Section 11.065, Sections 15305 and 15601(b)(3).

I live at [REDACTED] between [REDACTED] and [REDACTED] Streets. I am concerned regarding an application for a new hotel (at B Street and Petaluma Blvd. South) to be built in our historic downtown Petaluma.. I understand there is a plan for this hotel to use valet parking. As my neighbors and I have discussed, there is no more room for downtown parking on our residential street. We already have several multiple rentals on our block with six cars or more for one building as it is. This is. To sustainable.

Please do not crowd our downtown streets even more that they are now.

Thank you,

Suzanne Clarke
