As a long-time resident of Petaluma, I have experienced the change from small town to big city that developers have created with the coöperation of elected city councillors. We need better advice than that for the council so I respectfully ask you to appoint Brent Newell, Hal Bohner, and Ron Chestnut to GPAC. Their combined professional experience with environment, urban planning, land use, and county and city government will give the GPAC the expertise that is needed.

Yours sincerely, Anne Wurr
