Dear Mayor and City Council Members,

Members of the GPAC have been doing laudable work over the past period and I thank them for their contributions.

It is critical that we move forward with smart, climate- and environmentally friendly development. For this reason, I urge you to vote for three new GPAC members who would bring combined expertise in the areas of environment, urban planning, land use, and city and county government:

- Hal Bohner
- Ron Chestnut
- Brent Newell

Thanks for your consideration.

Sincerely,  
Annie Stuart
