Hello!

I am writing in opposition to the Scott Ranch/Davidon project mainly because of the environmental impacts that it creates. It would destroy the beauty and the environment that encompasses native endangered animal habitat and native plant habitat. It limits and destroys safe animal corridors. It increases water usage in the city which is identified as a high fire risk area. It would deteriorate our streets and infrastructure which are already in bad condition. It would add noise and air pollution to the area. Please respect the wishes of Petalumans and environmentalists that know that any development of this beautiful land would destroy it. We must protect the open space that is still luckily part of our unique city. Scott Ranch is one of the few places in Petaluma that is so beautiful in its natural state and so environmentally sensitive that it should not be ruined by a development by a Walnut Creek developer that has no clue as to the aesthetics and warm and friendly feelings that the people of Petaluma treasure.

Please do not disappoint us! Reject the Davidon destruction of our special community. Save Scott Ranch for the special people that live here and enjoy it.

PROTECT OUR GREENSPACEL

Thank you so much!

Sharon
