This message is to convey how important it is to our community that developers and others MUST use thorough, qualified, unpaid, unbiased professionals to survey & ascertain the true viability of the land on any project in our city. The outcome should not be SKEWED in the interest of developers who PAID them, but IN TRUTH about the real property & if it is in fact appropriate for their plan & our town. Please hear us! It is beyond frustrating to continue to express our wishes and desires and visions for our beloved town to those who have no ears, nor any local attachment (M Group, etc.) to the outcome. We elected you and want to know you hear us. We care more about the preservation & direction of Petaluma than the financial gain of developers & friends. Thanks.
