Hello Petaluma Leaders,

Please prioritize the Trestle Rehabilitation Project - what a boon this would be to our town! Right now... it's unsafe, and well, rather ugly; and it sits right in the center of tourist and town visitors. Monies dedicated to this project will provide a huge 'bang for the buck' with monetary returns from increased visitors - and as a Petaluma resident, I can be easily lured downtown more often to good food, nice community meetups, and a place to just hang out.

Please move this forward.

Thank you kindly,
Connie Williams
