City Council, We own a single family home in Petaluma that we rent to a lovely family. We are worried about the city council passing ordinances that would make having a rental home in Petaluma more expensive for us as landlords causing us to have to sell it. We are retired school teachers on a budget and yet put money into the home to make it nice for our tenants. If the ordinance is causing us too much loss of income it just will not work for us owning the home. I am certain that you will find many other landlords in our same situation. Pat Krusinski
