Dear Clerk.

Please forward this letter to the meeting tonight-

Dear Council,

My wife and I created a little trust which owns a small townhouse where our handicapped son lives.

He was been trying to hold down a job in a day program.

However, he may be better off in a community for handicapped people in Santa Cruz.

However a law "protecting tenants" will keep us from renting the townhouse to anyone because we

will probably want to sell the house in a year.

If you pass this new law, you have prevented us from selling the house at anywhere close to its current fair market value.

This townhouse was our attempt at creating some protection for our son.

This law will destroy our hopes.

Please do not include single family homes in your unfair unnecessary law.

Thank you.

Andrew Allen
