**Subject:** Agenda #4 New Business/Amy's Kitchen/Cultural and Preservation Committee

Dear Committee Members,

I support Amy's Kitchen moving to Downtown Petaluma in to the old Carithers building. I was unclear on the bike rack size and where it will be located. As a member of the General Plan sub committee on transportation there is a lack of safe bike parking in downtown Petaluma. We've discussed using an end parking space for bike parking. Is it possible to use one parking space for bikes? This would give more bike parking for downtown. Food for thought.

Thank you,  
Janice Cader Thompson
