To Whom it May Concern,

Please consider keeping the turf fields at Lucchesi soccer field. Turf fields are safer than grass fields, anyone who has ever dodged a gopher hole at Prince or Wiseman knows that. Soccer is growing in Petaluma, now is not the time to stop a project that keeps a well-used turf field in safe, usable condition. My son and daughter are thrilled to play soccer and it would be such a loss to the community to not have these turf soccer fields to play on year round.

Thank you for your consideration.

Carol Lipof
