Dear city leaders,

First of all, thank you for your service.

I so appreciate that I've seen city workers out at Lucchese, talking to community members to solicit our feedback.

I am at Lucchesi park every weekend and I see how that outdated and patched turf field is in constant use. We are all very much looking forward to speeding the replacement of the turf field.

As a former public servant, I have been on the front lines of the "turf wars." I fully understand, and can empathize with, both sides of the argument.

However, turf field at Lucchesi makes the most sense.

I hope you will act as quickly as possible!

Thank you again,
Jama
