---Warning: Use caution before clicking any attachments. THIS EMAIL IS FROM OUTSIDE OUR EMAIL SYSTEM.---

This proposal will increase the building height limit by 50% in the core downtown area.

The hotel will DWARF surrounding buildings and forever change the character of the downtown historic district.

This major change for a hotel? And a hotel that looks like it is totally out of character with the surrounding area.

And this will open up the floodgates for the buildings of other tall buildings withing this historic area.

I strongly disagree with this proposal and encourage the city to reject outright this proposal.

San Francisco used to be a beautiful city until the city got rid of their height requirement - which I believe was the Ferry Building.

If they want to build a taller hotel I am sure there are other locations outside the downtown area that they can explore.

Do not let this happen.

Regards
