Dear Commissioners of Planning and Historical preservation;

Tonight please consider that the preservation of the charm and desirability of our nationally registered

historic commercial district is of utmost importance to the Petaluma population you serve. These few precious blocks represent a small portion of our town. The guidelines that inform design changes are responsible and carefully considered. An overlay zoning over the historic district just to allow for the hotel project (or future buildings) to bypass requirements of height and style is not in the best interest of Petaluma.
