Dear Petaluma City Council members,

Our family resides at Little Woods Mobile Home park, and we are distressed about the potential closure that Harmony Communities has proposed.

Our family has lived at the park for a number of years now, and our daughter attends school locally, my wife and I work locally, we attend church locally, and we could not continue our current lives and our involvement in the community, if we were forced to move somewhere else.

We moved to a mobile home park because that's what was financially possible in the area, and the loss of Little Woods would completely eliminate the possibility of living in Petaluma. I grew up in Petaluma and had always hoped to continue to live here as I grew older. Little Woods finally gave me that chance and is allowing our daughter the opportunity to grow up in one of the best towns in the country.

In addition to the major disruption it would cause in our lives, my mother and stepfather live in Petaluma, and we are by far the closest family members to them. If we had to leave the area they would lose that support just at the time in their lives when it is becoming most crucial.

We thank you for the support you have shown so far (especially for the active involvement that Council member Nau has shown), and we fervently hope for your continued support in opposing the closure of our home and the forced relocation it would require.

Thank you,

Jay, Hannah & Athena Stewart
