I am in full support of this Hotel Project. There is a shortage of hotel rooms in Petaluma. Additionally, we need more revenue in the budget.

Petaluma is no longer a small agricultural "town".

Let's get w the times and capitalize on this development opportunity.

Impose some Petaluma / City / Resort style tax on the tourists who stay there and use this money as a set aside into earmarked projects i.e road / parks improvement projects or something agreed to by residents.
