Dear Mayor McDonnell and Council members, Please support our city staff's vision for improved bike/mobility lanes on D Street as part of the D Street Traffic Calming Quick Build project. Ideally D Street would have physically protected bike/mobility lanes for all ages and abilities, in line with our policies.

I use D St daily to bike commute with my children to school. It is also the only way to cross the river somewhat safely and effectively by bicycle.

Thanks,
Justin Carter
