

Senior Advisory Committee Public Comment – September 14 Meeting

Public Comment submitted on Tuesday, September 12 at 9:47am

Dear Senior Advisory Committee;

Hope you all are well...

I want to suggest to you that a possible issue your group could advocate for, is

public restrooms — or the lack thereof— downtown. The group Urban chat/ Know before you grow

(KBYG) has been working on this issue for a while. Maybe there could be a discussion group set up

at the Senior center focused on issues and ideas; the results of which could be shared with KNBYG.

The city is urgently trying to get more shoppers downtown. Seniors could make up a good portion of

the retail demographic, but they also have other kinds of urgencies at times. A clean, safe, accessible

rest room could be a real comfort.

Just a thought,

Kathy Myers
